WHERE IT GOES

This part in colour, its neighbours in grey

HOW TO MAKE IT AND HOW IT FITS

Plate 50 x 60 x 2.5 mm with a stop block 8 x 56 x 6.5 mm standing on its wrist edge; print plate side down.

Block: four 5.2 mm seats 5 mm deep from the wrist face for the sheath ends, with 1.6 mm tendon holes on through. Seats 24 and 8 mm to the thumb side and 8 and 23 mm to the little-finger side of centre, 3.25 mm above the plate.

Stitching holes 1.5 mm, 3 mm in from the edge, every 6 mm.

Fits: stitched to the back of the glove over the hand, block toward the wrist; the four extensor sheaths end in the seats.

Check: a sheath ferrule pushes fully into each seat.
