WHERE IT GOES

This part in colour, its neighbours in grey

HOW TO MAKE IT AND HOW IT FITS

Plate 34 x 60 x 2.5 mm with a stop block 8 x 56 x 6.5 mm on its wrist edge, on the outside face; print plate side down.

Block: four 5.2 mm seats 5 mm deep for the flexor sheath ends, 1.6 mm tendon holes on through, at the same spacing as the dorsal plate.

Stitching holes 1.5 mm, 3 mm in from the edge, every 6 mm.

Fits: stitched to the palm of the glove next to the wrist crease, block toward the wrist; the four flexor sheaths end in the seats.

Check: the palm still closes over a 40 mm tube with the plate on.

FlexHand palmar plate: making sketch
