WHERE IT GOES

This part in colour, its neighbours in grey

HOW TO MAKE IT AND HOW IT FITS

A ring 26 mm across, 12 mm long, sized to the thumb, joined to a web block 14 x 9.5 x 14 mm whose inner face is shaped to the thumb.

Print the ring axis upright with supports under the block.

Four 1.5 mm stitching holes through the block's flat face.

Fits: the block's flat face is stitched to the thumb side of the glove at the web space; the ring slides over the thumb and holds it out of the fingers' path.

Check: the thumb sits in the ring without pressure marks after 10 min.
